Inflation Hits 2-Year High of 6.09%, Breaks RBI Limit

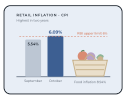

Illustration: Pringital News

NEW DELHI: Retail inflation rose to 6.09% in October from 5.54% in September, data released on Thursday showed, crossing the Reserve Bank's 6% upper tolerance limit for the first time since October 2024. Food inflation climbed to 8.94% from 7.74% as vegetable and grain prices rose after a deficient monsoon. The reading sets the stage for the RBI's monetary policy meeting on 2–4 December, where several economists expect a rate hike of 50 to 75 basis points over the coming months, which would push up loan EMIs. Growth remains firm, with SBI Research projecting 7.8% for the July–September quarter. Full story ↗
